

February 25, 1969

State Board of Health
Dover, Delaware

Attention: Mr Robert Westerman

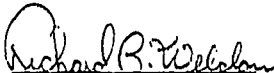

Gentlemen:

The New Castle County landfill located in Red Lion, Delaware, as witnessed by myself at 7:45 AM, on February 25, dirt was not properly spread over the previous day's deposit.

I was driving north on U S 301 when I spotted a large flock of seagulls feeding on uncovered garbage and trash on the landfill. This condition, I feel, is a result of inadequate cover on yesterday's deposit.

This letter is to confirm my telephone call to you and Mr George Dutcher, County Engineer.

Respectfully,

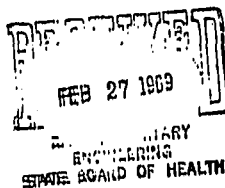

Richard B Weldon
President
Red Lion Community Assoc, Inc
